HYPEROX™
CARPET & FABRIC SPOTTER

HyperOx™ is an all purpose cleaner/degreaser formulated with biodegradable surfactants and hydrogen peroxide. HyperOx™ provides very effective & safe cleaning without the toxicity and environmental concerns of traditional cleaner/degreasers. Safe to use on most types of carpets and fabrics including cotton, nylon and polyester. Can also be used to clean most hard, non-porous, surfaces including countertops, tables, chairs and walls.

Directions:
For carpet and upholstery, remove any excess soil or debris. Spray directly onto stain and let stand for 30 seconds. Blot dry with dampened Fuller Brush Blotter Cloth. If stain is embedded in carpet, spray again and gently agitate with Fuller Brush Stain Brush. Use clean dampened blotter cloth to blot area dry. Repeat process as needed. For best results treat stains immediately. For hard non-porous surfaces, spray sparingly on surface to be cleaned. Wipe with a clean cloth until surface is dry. Note: Pretest on an inconspicuous area for colorfastness. Not recommended for silk, wool or leather. Certain stains may cause permanent discoloration even after cleaning. Store in a cool, dry place away from direct sunlight and heat.

CAUTION: EYE IRRITANT. Avoid eye contact and prolonged skin contact. **If in eyes or on skin**, flush with water for 15 minutes. **If swallowed**, drink a glassful of water. Contact a physician. CONTAINS: Hydrogen peroxide.
KEEP OUT OF REACH OF CHILDREN.
